

# Integrate your supply chain to increase efficiency and product availability

Keep your product flowing and satisfy consumer demand with the Hillebrand bespoke end-to-end supply chain management solutions, enabling you to always stay in full control.

## Hillebrand supply chain management features

### Collaborative platform

Hillebrand's platform connects all parties in the supply chain, enabling them to collaborate seamlessly.

Easy to use taskalerts, notifications, reports and dashboards.

### Reliable, robust and consistent process

We set up customer-specific workflows, that structure the execution of all the steps of your supply chain, wherever you are.

### End-to-end data visibility

Based on your sales (and/or delivery) data, we set up an accurate planning, to help you secure on-shelf availability and optimize your inventory levels.

### Local teams working closely with all parties.

Our local supply chain teams work closely with your suppliers to ensure your product remains available to satisfy demand.

## Hillebrand supply chain management benefits

Improved product shelf-availability

Easier to deal with uncertain demand

Optimized inventory levels and stock turnover

Operational efficiency reduced transport costs
